What is Voice Options?

Voice Options connects Californians with speech language disabilities to iPads with speech apps. Using a speech app may make being understood easier and allow you to speak independently.

Voice Options is a pilot program of the California Public Utilities Commission.

What is a speech app?

A speech app is software used on an iPad that lets you control an alternative voice. You enter what you want to say on the iPad and it is voiced through speakers. Speech apps work in different ways and they all give you independence and control over what you want to say.

What can I try out and borrow?

Try out and borrow iPads loaded with these five speech apps:

Go Talk NOW Plus

LAMP Words for Life

Predictable

Proloquo4Text

TouchChat

An iPad with a speech app may
be a solution for some people and
not for others.

Who qualifies?

- You are a resident of California
- You have difficulty speaking or you are not able to speak
- You find that people have a hard time understanding you

How do I apply?

Visit our website VoiceOptions.org to find a demonstration center or call toll-free (800) 390-2699 for more information.
